

## South Florida Women's Care Obstetrics & Gynecology

### SAFE MEDICATIONS IN PREGNANCY

Please note that no drug can be considered 100% safe to use during pregnancy. The following is a list of over the counter (OTC) medications that are safe for you to use during your pregnancy. While the FDA has shown many of the medications on this list to be safe, you should always ask your doctor about any medications you are about to take. Your situation and possible complications may be different. If you are on any medications or would like to take a medication not on this list, check with your doctor to make sure it is safe.
